OFFICE OF THE BUREAU CHIEF

FEB 24 2010

Paul Stacey  
Bureau of Water Protection, DEP,  
79 Elm St., Hartford, CT 06106

Please implement Streamflow Regulations.

Please enact rules requiring that enough water be left in every stream in the state so that they won't die of thirst. Water is a public resource, the needs of the stream itself should be considered in allocating water resources.

There is plenty of water for all, as long as we have proper and appropriate management.

I support the new streamflow regs and want them completed without being weakened.

Class 4 MUST be eliminated, or changed so that every stream in the state will have some level of protection. !!!

Thank you for your consideration.

Sincerely,

Judi Mandl
